 Limoges, France

Damien Chatry

Backend Developer

Work experience

Sept 2019 - Present

Backend developer

Equativ Adtech company in Limoges, France

Worked on the core application for managing advertising campaigns and participated in the transition from Zend Framework to Laravel.

Developed and maintained the in-house application for invoicing clients and consolidating financial data.

Jan 2012 - Sept 2019

Full-stack developer

International Office for Water in Limoges, France

Developed and maintained multiple Symfony and Drupal websites as well as Android and iOS applications for national French ministries as well as environmental european institutions.

Sept 2009 - Dec 2012

Freelancer

Nexus Web

Launched a freelance business to put me through school. I helped small companies with developing their online presence. It was a very rewarding first experience in the industry.

Education

2008 - 2010
